Your Assessment and
Accountability Partner

► Vision

We are committed to making a difference...
breaking new ground in our profession...
achieving excellence...embracing quality...
keeping ethics integral to our organization...
making a global impact...impressing our
customers the first time and every time.

Focusing on student Outcomes is an integral component of NOCTI's Assessments. Working with business and industry to identify critical competencies and developing assessments that demonstrate these outcomes is one value NOCTI provides. The assessment also encourages secondary and post-secondary institutions to align curriculum which ultimately better prepares students for the rigor of advanced educational opportunities.

The assessment also adds value to a student's portfolio and allows the student to demonstrate their knowledge, skills and talents. It provides Accountability to the student and the educational system.

We invite you to learn more about NOCTI and the partnerships we have throughout the United States. Please visit our website at:

► Benefits of NOCTI

Assists local and state leaders with Federal Accountability Requirements

- Standardized assessments in over 70 occupational areas
- Score reporting services providing results for each student with comparisons at the local, state and national levels
- Customized reporting services available including: year to year comparison; demographic analysis and item level data

► Assessment & Articulation...

- Provides students with a "Smooth Transition" from secondary to post-secondary or directly to the workforce
- Assures post-secondary faculty and prospective employers that articulated students have a certain level of preparation
- Helps students persist through the educational system
- Validates students' skill and content mastery
- Demonstrates students' achievement levels
- Advanced placement opportunities for students who demonstrate specific knowledge and skills

Worldwide Vision
