

## Resources (hyperlinks) for Schools

Act 13, 2020 Educator Effectiveness

[www.paact13.net](http://www.paact13.net) Act 13 training modules: Act 13 of 2020 revised the Act 82 Educator Effectiveness and is taking effect in the 2021-22 school year. There are several important changes in Act 13 such as the Student Learning Objectives (SLO) have been eliminated. The observation portion (Danielson Model) has increased to 70% of the evaluation for teachers for schools with building level data. Now, there is a multiplier that is based on economically disadvantaged students in the district. The higher the EC/Dis numbers, the more the adjustment is made. The website above provides three modules to be used in the Train the Trainer process. Additional training information is found on the SAS website at [Educator Effectiveness - SAS \(pdesas.org\)](http://www.pdesas.org). It is required for all educators participate in the training.
